AD	FNAL	04/30/2014	04/30/2014	Y		0	0	0	0

Medical Comments: After employee finished working on the generator housing he picked up his tools to return them to his office when he tripped over some scrap metal and fell. He hit is right hand/thumb and left knee. Wound cleaned and dressed. Sent to Tyler Medical for x-rays. Rigid splint given for right hand. Seeing orthopedic 5/1/14 for possible chip fracture of right hand.

ESH Comments: The employee was walking in the paved area behind the Cross Gallery high bay, carrying tools in each hand, on the way back to the entrance door to his office area after performing work in the area. The area is used to store material, which is lying on the pavement. There is no distinct path through the area and, as he walked, the employee stepped over the corner of a thin 4' x 7' sheet of steel lying flat on other material such that the top surface of the sheet was approximately 3" above ground level. The employee's foot caught the edge of the sheet as he was stepping over it, causing him to lose his balance and fall to the ground. He suffered injuries to his right hand and thumb and left knee. He reported to the Medical Office where he received treatment, including a rigid splint for his thumb, making the case recordable. He returned to work with limitations which do not affect his ability to perform his routine job functions. Further medical evaluation identified a chip fracture in the right thumb. The storage area where he was walking will be re-organized to provide adequate space for foot traffic.

Claim Pending:

None

Vehicle Accidents:

None

ORPS/Incidents/Notices of Violations:

None
